

Rectangular Coffee Table Assembly Instructions

Thank you for your purchase of the Built To Last Coffee Table Rectangular

Simply follow the directions below and you will soon be ready to enjoy your new Coffee Table Rectangular. Please call us at 877.258.2578 if you have problems with your assembly. Your satisfaction is our main concern!

1. First lay out all pieces as seen at left. You should have: 1 package of screws, 4 legs, and 1 table top assembly.

2. Insert screws into the legs by hand, then using the included square drive bit, tighten one screw on each leg until it protrudes slightly as seen at left.

3. Each leg is numbered, 1-4. On the apron there are corresponding numbers to insure each leg goes in the proper position. Starting with leg number 1, use the protruding screw to line up with the pre-drilled hole in the table apron labeled with a 1. Tighten screw until snug, but DO NOT OVERTIGHTEN. Then tighten the remaining 2 screws for the leg.

4. After repeating step 3 for all four legs you are ready to enjoy your new table!!
